Get the Time You Need to Focus on What's Important—Helping Students and Faculty Achieve More!

As a library media professional, you juggle a wide variety of responsibilities every single day, single-handedly. You're an educator, collection manager, cataloger, resource specialist, reference guru, tech troubleshooter...all before the lunch bell rings.

And your school library is more than just a collection of titles—it's your learning community's essential source of information including printed materials, the Internet, electronic databases, and much more. School libraries are hubs of learning and collaboration—accessed 24/7 by students, faculty and parents.

Destiny Library Manager™ will integrate and centralize your circulation, cataloging, searching and reporting functions into one flexible library management system—and help you support and strengthen a truly collaborative learning community.

In addition, Destiny Library Manager provides enhanced content services that strengthen the library/classroom connection. Follett Software offers services that match titles to students' reading levels, align collection materials to standards, provide safe web searching and streamline cataloging of non-print materials. With our team supporting your collection, cataloging, tracking and purchasing processes, you're destined for success.

With Destiny Library Manager, You're in Control.

- Integrate circulation, cataloging, searching and reporting.
- Centralize and streamline library management across all schools.
- Strengthen the library/classroom connection with enriched content subscription services that simplify searching and information access.
- Support district literacy programs for all students and parents by providing 24/7 access to the multi-language OPAC, which allows students to browse the library catalog and find resources that meet their needs.
- Provide a familiar technology interface for students, making them more comfortable, and more likely to use the library.

Flexible, Centralized Library Management Saves Time, Streamlines Tasks.

With Destiny Library Manager from Follett Software Company, You Can Cost-Effectively Centralize and Integrate All Operations Into One System—Flexible for Librarians and Easy for Technology Professionals to Maintain!

For districts of every enrollment size, library investments are substantial and inventory control is challenging. It just makes sense to manage these resources as strategically as possible so you can ensure that students and teachers have the materials they need to maintain the library-to-classroom/curriculum connection.

Destiny Library Manager delivers the advantages that matter most to library media and technology professionals as well as to instructional and administrative leaders:

- The right information and resources in the right places at the right time to make a difference:** Establish your library as the hub of learning and collaboration, by ensuring that students and teachers have access to what they need, when they need it, without interruptions or delays in instruction. Plus, our system provides greater visibility for online sources, and enables users to search all your district's subscription and free online databases and electronic resources in a single step.
- The right platform for growth:** The Destiny platform supports Library Manager and several other management solutions for your district's textbook, media collection and other assets. Only Follett Software Company offers this kind of centralized, integrated approach to resource management across the district.
- The right processes for efficiency:** Integrate circulation, cataloging, searching, reporting and library management so your library media and technology professionals have easy-to-use tools to manage resources.
- The right expertise to address your specific needs:** From helping one district in California increase library usage 300% and save \$35,000, to extending resources to 15,000 homes in Washington state, we've built an enviable track record of success. You can trust our team to apply our expertise to your specific challenges, so that together, your library management program performs optimally.
- The right approach to library management:** Support a single building or an entire district so you get a total "view" of your district's resources.

With Destiny Library Manager, everything you need to know about every library resource is right at your fingertips, 24/7. At a glance, you can locate, catalog, report and determine the status of every library resource in your district.

Save Time and Money.

- Centralize technology, reduce maintenance

and eliminate the need for multiple workstation applications with single-server installation.

- Use real-time, system-wide inventory data to locate and share resources.
- Establish district-wide standards and automated processes for library book checkout options, types of fines and related fees, and report formats.
- Improve student and parent accountability to reduce loss and associated replacement costs.

Better Reporting, Your Way.

- Track and report on library inventory by patron, resource title, building or district.
- Create the unique reports your district needs to fulfill local, state and federal reporting requirements with our Custom Reporting Service.

Take the Worry Out of Library Management. We'll Do the Work for You with Destiny Hosted Service.

Want Destiny to manage your library resources, but lack the staff, hardware, software or funds to support and maintain a district-hosted system? Follett Software Company has the secure solution to meet your needs: Destiny Hosted Service.

Hosted at an enterprise-class data center, Destiny Hosted Service provides centralized, web-based access to Destiny without the need to purchase servers, install and upgrade the application or provide technical support for a new system—your network and servers can be made available for other priorities. Upgrades and server maintenance are performed by Follett Software's IT experts.

Destiny Library Manager—The Right Solution for Strengthening the Library-to-Classroom Connection and Reaching Your Entire Learning Community.

Destiny Library Manager will help you transform your libraries into knowledge centers that drive information literacy, strengthen the library-to-classroom connection and expand their scope beyond “normal” operating hours. Students and parents will be able to search for information from anywhere, at any time 24/7.

Destiny Library Manager addresses your priorities and gives you the ability to manage library resources in a centralized, coordinated and convenient way.

For Students and Parents.

- Give students a familiar technology and visual interface to encourage successful library use.
- Provide 24/7 access to the multi-language OPAC.
- Choose options for older students and fluent readers or graphic-based visual search screens for emerging readers, struggling readers and ESL students.
- Provide easy access to reading program titles that match students’ reading levels.
- Direct students to safe, relevant web sites containing educator-reviewed, age-appropriate information.
- Catalog school-specific subject headings to simplify students’ searches.

For the Classroom/Library Collaboration.

- Provide greater visibility for online sources and search your district’s subscription and free online databases and electronic resources in a single step.
- Help teachers develop and enrich curriculum by easily finding standards-aligned resources.
- Provide online resources to streamline cataloging of non-print materials.

Start to Finish, We're Here to Support Your Success.

When it comes to implementation, Follett Software Company excels. We make sure you have the tools, knowledge, support and training you need to use your system optimally.

- **Smart Data Conversion:** We'll help you convert your existing data so implementation is more efficient.
- **Proven Implementation Processes:** With thousands of implementations completed, we've developed processes that ensure success.
- **Comprehensive Project Management:** You'll have the support and expertise of a dedicated project manager to meet your deadlines and provide status reports throughout the project.
- **Expert On-Site Installation:** We provide installation and technical and product training to make sure your system gets up and running successfully.
- **Training and Technical Support:** Both on-site and web-based training and our technical support are available by toll-free telephone, email and the web, plus you have access to software updates as they're released.

Destiny Library Manager and Your Student Information System.

Destiny Library Manager has been designed to work compatibly with most major student information systems. For complete technical information, contact your Follett representative.

Follett Scanners and Barcode Labels Make It All Possible.

Follett Software Company sells and supports a full range of scanners, including the Follett Panther™ wireless PDA and ImageTeam™ 3800g handheld scanner, and durable, economical library barcode labels. We can also provide barcoding services to make the automation process easy and convenient. Follett can train your staff on practical ways to approach resource barcoding, as well as provide services to get your current library inventory barcoded.
