

Increase circulation and tune up your system easily and quickly with the phenomenal yet affordable

Get It Clean

MARCmechanic Express™

Choose the updates you want. Update critical search and access points. Improve search results. Make managing your collection easier. Fix US MARC code errors. Screen key search fields, award notes. Check curriculum control, collection and circulation management fields for missing content. And much more! *Return of cleaned data within 3 days.*

Subject Heading Updates

Replace outdated search terminology to dramatically improve circulation. (The average K-12 MARC database contains over 3,000 no-longer-used subject headings.) Add Kid-Friendly™ subject headings to increase searching success. *Updates completed within 1-3 days.*

LexileMatch

LEXILE Add the most current and accurate registered Lexile® measures to your database. LexileMatch's accuracy is the highest in the industry. **Also available: Mitinet Correlations to Lexile Measures.** Because the number of registered measures in the Lexile database is limited, Mitinet has developed Correlations to Lexile Measures. Our correlation process calculates a useable measure to increase significantly the number of titles available for your Lexile program. *Records available within 24 hours.*

MagicREcon™

Accurately replace brief, substandard MARC records with quality, full records. MagicREcon provides automated record matching and options that minimize or eliminate record matching errors. *Available online 24/7.*

Keep It Clean

MARCFirewall

Prevent the entry of substandard MARC records that pollute your system. Screen new MARC records from book vendors, the web or your automation vendor—before you load them. MARCFirewall also checks all records to ensure that important search, circulation and curriculum fields are present, up-to-date and correctly placed.

Add New MARC Records

FastMARC Cataloger

Even non-librarians can create original quality cataloging. The step-by-step format includes interactive, on-screen tips and examples as well as holding settings for all major library automation systems.

AccessMARC® featuring MARC on Demand™

Find the records you need. Search the best K-12 MARC database with the highest hit rates in the industry for print, DVD, video, nonprint and teacher resources. If you can't find the MARC records you need, we will search our proprietary MARC sources for you.

MARC Magician

This award-winning software remains the industry standard for cataloging. With it, a professional librarian can catalog *any* material! Allows global editing and produces cards and labels.
